Hot Glove®

UNIQUE SPORTS PRODUCTS

To our valued Customers:

This marks our 42nd year in business. We began in 1972 with a game-improving grip product. The main office was a two bedroom apartment with a three year old and a newborn. Today, the two babies, Mike and Kevin are now full time employees and owners. Our passion and commitment for creative and unique game improving products continues with the next generation.

All our competitors have turned into marketing companies selling foreign made goods to consumers who have seen their jobs moved offshore. We chose not to follow this path. Over 75% of our business is generated by Made in USA products. Products not made here are packaged and inspected in our USA plants. This control translates into quality product and timely delivery. Do check out our prices, they are sharp.

Our focus continues to be on innovative products that drive increased sales and profits. Hot Glove is our leading baseball brand. It has been said that change is inevitable, but improvement is optional. Even in these tough times we will not cease to innovate and improve. We thank you for many years of association.
We welcome you if you have not done business with us.

Heat Treatment

Instantly breaks in new gloves

Invented and made in USA

QUICK! EASY! SAFE! Hot Glove Treatment breaks in leather or vinyl baseball gloves. In a matter of minutes this one-of-a-kind, break-in system will have you catching balls with new glove. The new glove will feel as if you had been playing with it for 6 months ...nice and comfortable. Market proven for the past 19 years.

We GUARANTEE it on every package.

Note these important facts:

- Softens and conditions in minutes
- Waterproofs and protects new glove
- Forms a superior catching pocket
- The power of this treatment is unleashed through the application of heat from a conventional oven
- Successfully and safely applied on millions of gloves the past 21 years
- As featured in Sports Illustrated, TV, and baseball and softball magazines

Foam it on

Heat in oven for 4 minutes

"Hot Glove works ! It's a great product"... Bobby Cox

- *Professional Baseball manager, 30 + years*
- *Four time MLB Manager of the Year*
- *Hall of Fame manager*
- *Won over 2000 games*
- *Winner of the World Series*

Hot Glove Side Kick Display

Side Kick Display for heavy seasonal sales in the spring. Display holds 12.

It measures:
14" wide x 23 1/2" high, 5" deep.

Generate plus sales when new gloves are purchased in the spring.

Hot Glove® Glove Accessories

Glove Management System

Top Seller !

Everything a player needs to maintain a glove!

The System kit consists of the following:

1. Hot Glove Treatment formula - to break in new gloves or revitalize worn gloves. It comes in a pump spray bottle so the package can ship by air.
2. CREAM Conditioner - preserving, moisturizing and prolonging the life of the glove.
3. Glove WRAP strap - to preserve the ball pocket. Just place ball into pocket and secure around the glove with Glove WRAP.

This is a valued gift for any ball player.

114

Glove Mallet

Helps break in glove pocket.
Especially effective when used after applying Hot Glove Treatment.

It also loosens & shapes the finger pockets in the glove.
Crafted from one piece of wood.
Mallet head size is shaped the same as a baseball.

113

Break in glove

Shape glove finger pockets

Cream Conditioner

CLEANS - PRESERVES - PROTECTS

REVITALIZES with Lanolin and Vitamin E

Great for worn and new gloves. It does not stain or make the glove heavier. This is very important since oil based products are absorbed into glove and add glove weight.

The CREAM Conditioner formula will protect and soften any leather glove. It will repel rain and moisture which is the greatest hazard to gloves. We highly recommend that CREAM Conditioner be used after treatment of new glove with Hot Glove Treatment. Applies easily with cloth or hand. Completely safe to use.

107

Hot Glove® Glove Accessories

Deluxe Glove Wrap

Deluxe Wrap made of polyester and nylon for enhanced pressure around the glove. Wrap has an open cut in the middle so it conforms to any size glove. Comes with a softball size plastic ball to be placed in the glove pocket when the Glove Wrap is positioned around the glove.

Velcro closure adjusts to any glove size. This is the best way to maintain a glove pocket and preserve its shape.

119

Glove Wrap

Simply place the ball in the glove pocket and wrap it with Glove Wrap. It's made of stretch elastic with Velcro closure so it forces the ball against the glove. Very simple yet very effective in preserving the shape of the glove. This is a must item for glove maintenance.

118

Wrap Bands

Wrap Bands help you maintain the glove ball pocket when the glove is not in use. Just place a ball in the glove and press glove around the ball with Wrap Bands.

They work on any glove. Simply make an "X" pattern as in photo and store glove.

WRB-2

Glove Band

Open end gloves can be made comfortable with Glove Band. It's made of elastic terry material that stretches over the back of the glove and is secured with Velcro closure.

Players hand fits snugly with less chance for glove to slip off. The band is useful to wipe forehead perspiration. Washable and reusable.

HGB-BK Black

Hot Glove® Glove Accessories

Sting Pad ™

Prevents palm bruising and stops the sting caused by hard hit balls. Made of shock absorbing gel which dissipates the impact of the ball. Once the palm is bruised, it is difficult to enjoy the game. Sting Pad promotes healing by protecting the palm.

It slides over the index finger and fits snugly against the palm. Player does not feel it once the hand is inside the glove.

*** Fits either left or right hand.**

HSP-1

Top Seller !

Sting Pad Pro ™

STOPS BALL STING!

Prevents palm bruising by hard hit balls. A larger pad protects more of the palm

.Made of shock absorbing gel which dissipates and cushions by absorbing the impact of the ball. Sting Pad Pro covers a wide area of the palm. It promotes healing of bruised palm.

It slides over the index finger and fits snugly against the palm. Once inside the glove the player is not distracted by it.

*** Fits either left or right hand**

HSP-P

Glove Laces

Pro level quality glove replacement laces. Made of genuine rawhide for superior strength and performance. Lace is regulation size: 3/16" wide x 48" long. Available in tan and black.

GL-T Tan
GL-BK Black

Glove Lacing Kit

This is Pro level quality glove replacement lace for baseball and softball gloves. It is made of genuine rawhide for maximum strength and performance.

Package contains one regulation size lace (3/16" wide by 48" long) and a 5" plated steel needle.

GLK-1 Tan Lace

Hot Glove® Bat Grips

MEGA TAC ® Bat Grip

This is the tackiest bat grip in the market.

Mega Tac grip grabs you back. You will not believe the incredible tack. The bat will not fly out of players hands. It is thin so it does not build up bat handle. Can be used on wood or metal bats. It can also be wrapped over synthetic bat grip. This is a must try. Each package has two grips.

HGMT-BK Black , White, Blue

Incredibly Tacky !

"Feel Me" tab

Just wrap it on

BAT GRIP - Replacement Grip

Replaces the original bat handle grip. Edges are grooved and beveled for smooth, perfect fit. Adhesive is on back of grip for quick replacement. Bat Grip has a cushion layer to absorb shock when ball makes contact with bat. It eliminates the need for gloves and minimizes blisters and stings.

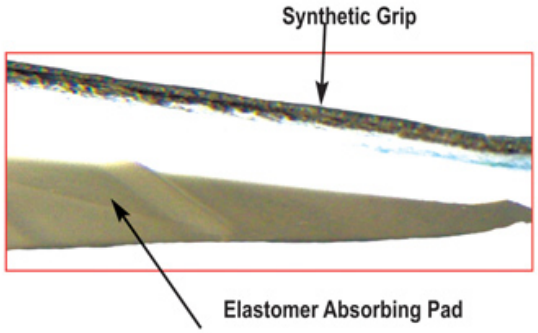
SPT-X Black, Gray

STING OFF™

Sting OFF™ is a vibration reducing bat grip. The secret is in the unique elastomer absorbing pad below the synthetic grip. The pad absorbs the sting caused by off center hits. It protects batters' hands and wrists from bat transferred shock and vibration when hitting fast pitches.

An ounce of prevention is worth a season of play.

HSO-1



GAUZE GRIP

Tacky rough grip which sticks to the bat handle and itself. It's very, very thin so it does not build up the bat grip. Each roll of gauze is 30 feet long so it goes a long way.

HGG-BK Black

BAT TAPE

Wrap on this adhesive backed cloth tape on the bat handle. Provides a firm grip. Made of cotton material in the USA.

Roll is 3/4" by 10 yards. Has many applications on the roll.

BT-X White, Black

Hot Glove® Bat Grip Enhancers

TAC RAG

A no mess alternative to Pine Tar. Made with natural bee's wax which does not leave a lingering sticky feel on hands, gloves, or equipment...amazing. The tackified Rag gives a safe, non-toxic, moisture repellent tacky layer.

It will not stain or create a mess. Simply wipe hands, gloves or bat with Tac Rag. Stores in enclosed zip lock bag. When it turns completely gray, just throw it away. Lasts about 6 weeks .

RAG-WXL White size: 9" x 18"

PRO STICK ®

Resin stick is tackier than Pine Tar, but so much cleaner. Just rub on handle or grip and make it as tacky as you like.

Safe on skin, odorless and non toxic. Washes off with soap and water. It delivers a 100% sure grip. Comes in a resealable vile which easily fits in pocket. Will last and last a long time. The most economical grip enhancer on the market.

PSC-B

Twist open-close

Rosin Bottle

ROSIN GRIPS

Professional grade, dry rosin grip. Mined and refined from mineral rock. Just slap on hands or bat handle. It creates a dry surface for a sure, positive grip. Time tested solution.

Packaged in a resealable pouch on a blister card. Also available in a dispenser bottle for use by entire team ... holds 2 oz of rosin powder.

ROZ-B Rosin Bag
ROZ-3 2 oz. bottle with shaker top

PITCHERS ROSIN BAG

Professional-grade dry rosin. Large size, 4.8 oz. bag. Just slap on hand for a positive grip. One slip of pitched ball can be a performance killer.

Packaged in zip lock bag for neat storage.

ROZ-P - 1/pack

Hot Glove® Baseball Accessories

BAT RING ™

- Protects heel of hand
- Absorbs sting and vibration
- Improves comfort while batting
- Stack two to choke up on the bat
- Improves grip for a powerful bat swing

Two per package. Made of durable elastomer which absorbs shock.

RING-C clear

POWER BAND ™

Protects heel of hand from the bat knob. Made of thin shock absorbing silicone. It tightly stretches over the bat knob and stays where you position it. There are two per package. For more cushioning we recommend that one be placed over the other.

The added benefit is that it allows the batter to drop one or two fingers behind the bat knob. This gives a softer hand - finger tension on the bat. It adds wrist whip-speed that generates explosive pop and power. Without Power Band, the batter can get blisters and sore fingers.

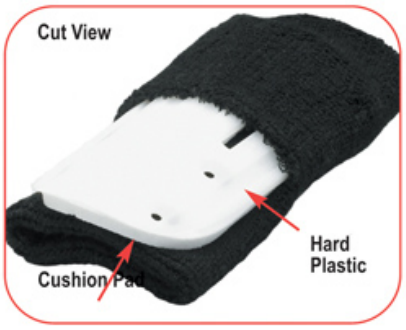
BAND-2

WRIST SHIELD

Protects a batter's forearm and an infielder's wrist from hard hit balls. Hard plastic insert is custom molded to curve around the wrist and forearm. We cushion it so it absorbs the impact. Ventilation slots are designed into the unit to permit air flow for comfortable wear. Does not interfere with fielding or hitting.

Can be washed in cold water and used for a long time. In resealable clam pack so customer can try it on.

BWS-1 White
BWS-BK Black



WRISTBANDS

Medium weight (1 1/2 ply) 6" long, wristbands. It is like having a towel on your forearm.

Made in USA with non-allergenic cotton. Available in black and white. We can knit many other team colors. Call us.

1.5 Ply # 6BWB -1 White 6" long
1.5 Ply # 6BWB -BK Black 6" long

We knit bands in USA with recycled cotton yarn. Help save the planet and keep jobs in US.

6BWB-1; 6BWB-BK

Enclosed Marker

MY NUMBER ™

Personalize your team number. Any combination of numbers can be made from 1 to 99. Simply mark out the portion of the embroidered rectangle legs to create your number. See example to right. Permanent ink marker is included.

MYB-BK Black

"88" is embroidered on each band. After applying marker it becomes 18

Hot Glove® Baseball Accessories

BAT SOX

Protects and stores baseball/softball bat.
Made of acrylic yarn knitted in our US plant.
Fits very snugly around bat.
Protects car seats from dirty bats.

We can embroider a team logo or your business name on the Bat Sox. A great way to promote your business.

BS-X Black, Gray colors

REFLEX BALL

A great training aid to sharpen reactions. The ball is dropped at shoulder height and it will bounce unpredictably due to its protruding sides. Only ten minutes a day will sharpen players reactions.

201

HIT-n-FIELD Training SPECS

This hitting and fielding goggle is designed to block the lower field of vision. Players learn to hold their head down in optimal hitting and fielding position. If the head is up, the Specs will screen a pitched ball. Specs emphasize that they must keep both eyes on the incoming ball. Head movement will also make it very difficult to bat. Keeping the head still is quickly learned.

When fielding a ground ball, the Specs force the player to see the ball move into the glove pocket. Specs reinforce that the head must be down to field the ball properly.

HFS-1

BAT WEIGHT

This is a classic donut bat weight that slides over the bat. Made of cast iron and coated with very durable vinyl to prevent damage to the bat.

Packaged in a clam shell that takes up minimal room on peg display. Available in 16 oz for youth and ladies, and 24 oz for adults.

BWT-16 16 oz, red color
BWT-24 24 oz, blue color

Plastic Practice Baseballs

Official baseball and softball size balls.These are durable, hard plastic balls for batting and ball machines.
Available in white (no holes), yellow, red, orange, purple, optic yellow, blue, green and white.

DS-C

Top Seller !

DS-1

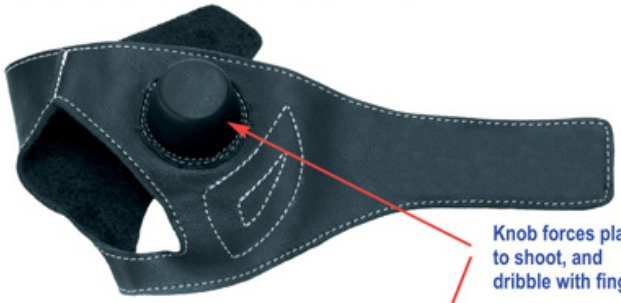
DRIBBLE SPECS ™

Teaches basketball dribbling by feel and not by vision. Dribble Specs block lower vision thus forcing a player to learn by feel. The learned result is to focus on the game and not on dribbling hand. Coaches love them and many schools use them.

Available in blister packs or bulk for schools.

DS-1
DS-1-12 Bulk

Blocks lower vision



Knob forces player to shoot, and dribble with fingers

BALL CONTROL

In every sport fundamentals are the key to success. In basketball fingers are the key to best ball control. To train and to break the habit of "palming" the ball, just slip on Ball Control glove(s) and practice. The built in knob won't let a player palm the ball.

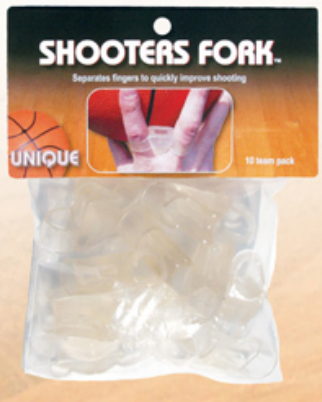
Made of soft leather. Velcro closure for perfect adjustment for most hand sizes. Wash with soap in cold water. Air dry.

BSM - 2M/L Pair -right & left hand
BSM - 2XL Pair-right & left hand

Shooting Aid that Works !

US Patent # 11/726,19/

Fork on fingers.



10 pack

2 pack

SHOOTERS FORK ™

Remarkable shooting training aid...it spreads apart the middle and index fingers - creating what is known as the "shooters fork". These two fingers control the aim of the shot. When fingers are spread properly they keep the ball from rolling to the left or right. The flexible silicone Fork slides over fingers, creating the perfect training aid. The "Fork" is comfortable enough to be worn during games.

Made of silicone (latex free). Its flexible material allows a player the freedom to dribble, pass and shoot. It fits either hand.

SF - 2 (2/card)
SF -10 (10 pack)

Basketball Accessories

Compression ARM SLEEVE

Comfortable muscle support with sheer performance fabric. Fatigue is reduced and performance is improved. The fabric is feather light and feels like your second skin.

FOX 40 - Pealess Whistle

Classic Official Pealess Whistle

The Best quality, most trusted pealess whistle in the world.

Made in Canada # FOX-C 12/cs

BALL DOCTOR®

Ball Doctor seals leaks and punctures in valve inflatable balls without a bladder. Simply insert syringe tip into ball valve, depress the plunger, then pump up air pressure. With ball fully pressurized, bounce it vigorously for several minutes. That's it ... it's ready for play with a true bounce. Proven to work since 1975.

New and used balls develop leaks around the stem valve. Ball Doctor seals the leak problem instantly. School administrators love Ball Doctor gallon size since it repairs a ball for about $ 0.30 cents.

BD-1 (1 oz. syringe, blister carded)
BD-2 Quart (.95 liters) with syringe repairs about 30 balls
BD-4 Gallon (3.80 liters) with syringe repairs about 125 balls
BD-P Measuring Pump for gallon container. One stroke = 1 oz.
BD-S Bulk Syringe (empty)

BALL CLEAN

All balls accumulate dirt and pick up skin oils from hands. Ball Clean is an amazing solution that removes the grime quickly without changing the ball surface.

Just spray it on, and a minute later wipe it off. We tested it on many old balls and it left the coaches amazed. The balls handle better and look great. Can be displayed on a shelf or hook.

BAL-4 (4 fl. oz. pump spray)
BAL-4J (4 fl. oz for J-hook display)
BAL-2 Quart size (with sprayer)

Basketball KEY CHAIN

Miniature basketball key chain. Looks and feels like a real basketball.

SK-4

Football Accessories

Adult Size

Youth Size

Clear View wrapped lens design is made to precisely fit the football helmet curvature. This design provides a clear view in all directions.

CLEAR VIEW ™- Helmet Eye Shield

Clear View lens is injection molded, shatter-proof polycarbonate. It's 3 mm thick and the view is distortion free. The lens is treated on both sides with anti-scratch and anti-fog coatings. Wrapped lens design eliminates blind spots and glare. The lens also blocks UV harmful blue light. Wearing a shield attached to a football helmet will greatly prevent eye injury. Clear View fits most helmets. Clear lens so it is legal for high school and college play.

This is a quality, fully functional football helmet eye shield with no fancy packaging or name brand logos that spike up costs. Check out our value price.

Lacrosse Accessories

Slash Guard

Protects players wrist and forearm from sticks. Hard plastic insert is custom molded to curve around the wrist and forearm. It is cushioned so it absorbs the impact. Ventilation slots are designed into the unit to permit air flow for comfortable wear. It doesn't interfere with play.

Can be washed in cold water and used for a long time. Packaged in resealable clam pack so your customer can try it on.

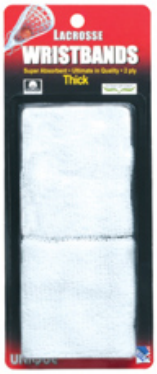
LSG-BK Black

Pocket Mallet

Helps break in lacrosse stick pocket by striking it with Pocket Mallet. Crafted from two pieces of wood.

LPM-1

Wristbands



Thick, 2 ply construction. Extra long so it's like having a towel on your forearm. Very much needed during dog days of summer play. Made of non-allergenic cotton in USA. Content: 94% cotton, 6% elastic.

LWB-1 White
LWB-BK Black

We knit bands in USA with recycled cotton yarn. Check the label of bands made by other companies: acrylic, polyester, nylon, which are plastics.

Stick Cap

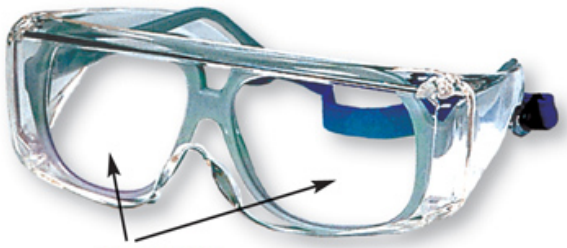
Replaces worn or lost lacrosse stick end cap. Fits most sticks. Available in black only.

LSC-1

Lacrosse Over Specs ®

Fits right over most prescription glasses. Lightweight and comfortable to wear. Made of shatterproof polycarbonate. Lenses are optically correct with no distortion.

LOS-1

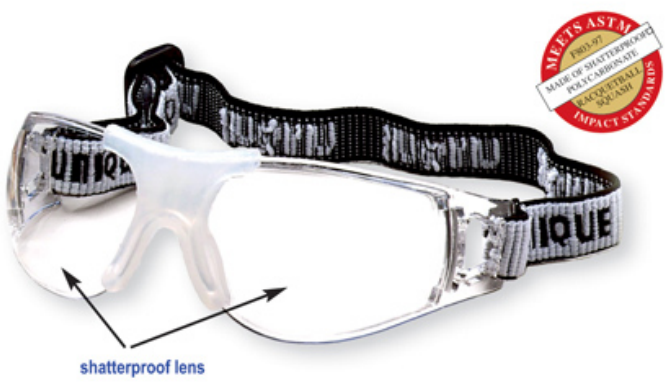


Lacrosse Super Specs ®

This is the classic eye guard design, and still one of the best. It features flow through ventilation design to minimize fogging. Made of shatterproof polycarbonate with anti scratch coating and anti fog treatment.

Super Specs offer 180 degree full view that is distortion free. Proven in tournament and recreation play since 1985. Passed the rigorous Detroit Testing Lab tests where balls are fired at 100 miles per hour at the eyeguard.

LSUP-1 Clam pack



Lacrosse Grips

Lacrosse Stick Grip ®

Easy to apply. Grip has adhesive strip on back side. Just peel backing and apply. For all Lacrosse sticks. Cushioned grip absorbs shock and minimizes use of gloves. Perforated grip absorbs moisture and gives you a slip free grip. Lacrosse Stick Grip will help in reducing blisters.

LSPT-BK

Lacrosse Stick Tape

Wrap on this adhesive backed cloth tape on stick handle. Provides firm grip. Made of 100% cotton cloth material.
Roll is 3/4" by 10 yards.
Has many many applications on it.

LST-BK White, Black

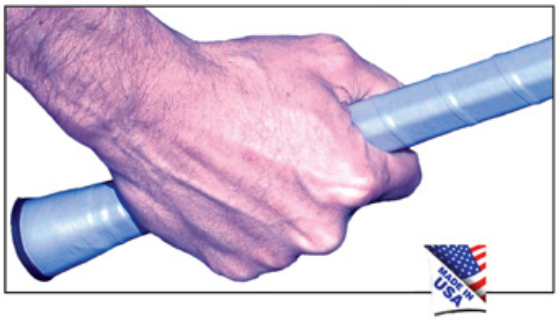
Lacrosse Tourna Grip ®

This is a dry feel grip that really soaks up sweat. Ideal for hot humid days to keep a firm grip. It absorbs moisture better than any other grip solution.

This is the famous Tourna Grip which is the # 1 selling grip in the tennis market worldwide. We made it extra long to cover Lacrosse sticks. Tourna Grip's motto is:

"The light blue grip that does not slip".

LTG-2-BL 3 grips per pack

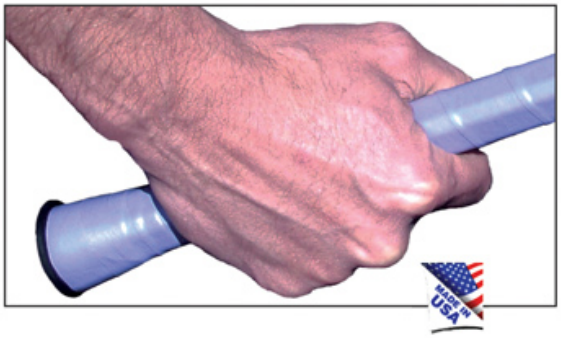


Lacrosse Tourna Tac ®

This is a very tacky, sticky, absorbent stick overgrip. The stick will not fly out of player's hands. Advanced moisture formula protects the grip from becoming slick when it rains and during hot and humid summer months.

This is a special long cut to accommodate the Lacrosse sticks.

LTT-2-W 3 grips per pack (White)
LTT-2-P 3 grips per pack (Pink)



Lacrosse Gauze Grip

Wraps over stick handle. It sticks to itself and delivers a sticky, tacky rough surface. It's very, very thin so it does not build up the stick grip. Each roll of gauze is 30 feet long so it goes a long way. # LGT-BK Black

Lacrosse Pro Stick ®

Just rub on stick handle or over grip and make it as tacky as you like. Safe on skin, odorless and non toxic. Washes off with soap and water. It delivers a 100% sure grip. Comes in a resealable vile which easily fits in pocket. Will last and last.

Soccer Accessories

Hot Spots™

KEEPS LACES TIED ON SOCCER SHOES !
Protects from laces getting untied.

Hot Spots improve the surface on shoe for better ball control (no laces to get in the way). The player will experience better touch, spin, and control of soccer ball. The kick becomes more powerful.

This item is a staple item with coaches and kids. The clam pack holds 2 Hot Spots. Player can try it on without damaging the package. Comes in colors.

It works. Very elastic so it is easy to pull over shoes. Just slip Hot Spots over the front of shoe and cover the laces.

Dribble Master™

This works to break the habit of looking at the soccer ball while dribbling. Speeds up foot feel for ball. Dribble Master restricts downward vision thus forcing the player to learn to dribble by feel.

Made of soft flexible plastic. One size fits all with adjustable strap band. Suitable for teens, pre teens, boys and girls. Packaged on a blister card.

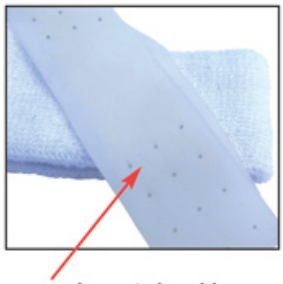
 # DM-S

Sock Jockey™

Keeps shin guards in place. No need for messy tape to hold the shin guards up. Reusable and washable.
Very easy to adjust with velcro closure.
It also keeps socks in place.
Players should not worry about shin guards and socks getting in the way of play.
Two per package.

 # 311

Soccer Accessories



Impact absorbing stretchable silicone liner fits inside the band

Soccer Header Band

The inside of the headband is lined with a silicone shock absorbing pad. The circular silicone pad is perforated to allow air flow for cooling comfort. Header shots no longer have to be painful.

The Header Band absorb most of the shock and protects the head. One size fits all. Stretches to fit comfortably. Band is made of cotton. Wash in cool water and air dry.

HED-W White
HED-BK Black

Enclosed marker

'88' is embroidered on each band. After applying marker to first '8', it becomes '18'

Soccer My Number Bands

Personalize your team number. Any combination of numbers can be made from 1 to 99. Simply mark out the portion of the embroidered "88" rectangle legs to create your number. See example to left. Permanent ink marker is enclosed.

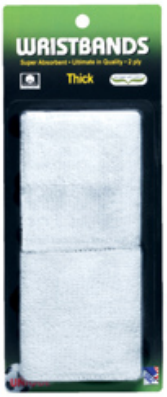
SUPER THICK (2 ply) wristbands. Plush, luxurious feel. Extra long. Extremely absorbent due to high content of cotton (94%). Two per package.

MYS- BK

Soccer Key Chain

Miniature rubber soccer ball key chain.

SK-S

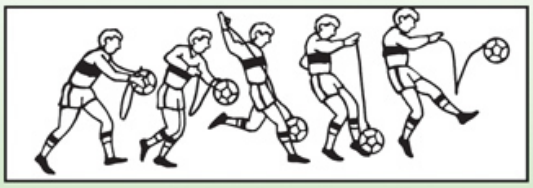


Soccer Head & Wristbands

Thick, 2 ply construction. Extra long so it's like having a towel on your forearm. Very much needed during dog days of summer play. Made of non-allergenic cotton in USA. Available in black and white.

Content: 94% cotton, 6% elastic.

SOWB-1 White
SOWB-BK Black



Solo Soccer ™

This is a perfect soccer training aid. Elastic string brings the ball back every time. Players reaction skills and feel for the ball increases dramatically for ball-foot coordination.

Just inflate the ball and you are ready to practice. To save shelf space, the ball is deflated in package. The package has all the practice instructions.

Advanced PVA synthetic chamois material creates a cooling effect which is significantly cooler than ambient air. Hand wash with mild soap and rinse. Do not air dry. Place in zip lock bag or tube while still wet. Dampen before use. Size: 34 cm x 81 cm long x 2 mm thick

COOL - B-T - Blue, in plastic tube

Dip in water to activate

Clip Strip Promotion

LIQUI Cool® Cooling Bandanna

Keeps your body temperature cool even on the hottest days. How does it work? Just soak in cold water for 10 minutes. Crystals embedded in the bandanna expand 400 times and turn into a cooling gel. It will stay cool for 12 hours or more. To recharge, just re-soak in cold water.

To clean, wait until dehydrated (two days). Hand wash with mild detergent, air dry, and use again.

Put this item on a Clip Strip and blow it out during the hot summer months. Millions sold. We cut and sew and embed the crystals in our US plant. Save money by dealing with a direct source.

Available in solid white, blue, black, pink, light blue, blue print, red print.
